

**Upgrade** existing **Access Control Entry Systems**.  
**Ideal** for guarded complexes, entrance doors, gates.  
**Forget** carrying, keeping, replacing, buying new remote controls, RFID cards, tags, chips, etc.

**Save money** and stop the cost of issuing new, lost or broken remotes, cards, chips and buying batteries.  
 Use your **smartphone as a digital key** to go through existing access controlled office buildings, parking lots, warehouses, production premises and apt. complexes.  
**Easy iOS & Android mobile app.** Intuitive management of your existing access points and credentials.

## NO SUBSCRIPTION OR INTERNET NEEDED.

- ◆ **Businesses:** Improve security and optimize employee access control.
